Undisclosed

Client

Roam Dome

Duration

4 Weeks Design,
8 Weeks Build

Roam Dome is a new VR Gaming Experience looking to enter the UK with its first public site. McCarthys were introduced due to our reputation within the Gaming Industry, Leisure sector and track record within Trampoline Parks, Indoor Karting and Games Design Studio fitouts.

Starting with the clients vision McCarthys built up the design brief, layouts and 3D visuals of the space required for design, look and feel, budget cost signoff. This was developed into construction drawings, Programme of Works and Open Book Cost Schedule. Client meetings, Progress Reporting were held on video calls due to clients location in Geneva.
